## About ZAG:

### Leading Player in HVAC-R Supplies in Pakistan

Established in 2019, Zag is a prominent importer and supplier of high-quality and refrigeration solutions in Pakistan. It specializes in providing advanced HVACR Solutions, ventilation systems, climate control products, and technical services for large-scale construction, industrial, and infrastructure projects across the country.

With extensive international presence in ME, SEA, Latin America & Canada, Zag leverages a robust international network to ensure efficient sourcing and timely delivery of premium products from globally recognized manufacturers. Our global presence enhances logistics, strengthens supplier relations, and enables us to meet complex project demands with precision.

In addition to supplying HVAC systems, we import a wide range of commercial and industrial refrigeration products, serving sectors such as real estate, healthcare, hospitality, warehousing, transportation and industrial retail. Our team offers expert consultation, technical support, and comprehensive after-sales service—ensuring performance, reliability, and customer satisfaction at every stage.

Driven by a commitment to quality, innovation, and service excellence, Zag continues to be a trusted partner for clients seeking dependable climate and refrigeration solutions in Pakistan and beyond.

# Our Vision:

To be recognized as a regional leader in the HVAC and refrigeration industry by delivering exceptional value through reliable, high-quality, and cost-effective solutions ensuring complete client satisfaction and building lasting relationships founded on trust.

# Our Mission:

To deliver superior HVAC products and cutting-edge technical solutions tailored to the dynamic needs of Pakistan's construction industry. We are committed to excellence through innovation, unmatched customer service, and dependable products that empower our clients' success

# Incoflex Thermal Insulation

**Incoflex.**  
Perfect Insulation

## Incoflex Thermal Insulation Solutions & Accessories:

Incoflex, a specialized brand under the Incotec Group, offers cutting-edge insulation solutions with a strong focus on XLPE (Cross-Linked Polyethylene) and NBR (Nitrile Butadiene Rubber) foam insulation. Engineered to meet the most demanding international standards, Incoflex products provide superior thermal insulation, acoustic performance, and energy efficiency across a wide range of applications, including MEP (Mechanical, Electrical & Plumbing) systems, industrial facilities, and commercial buildings.

### XLPE Insulation:

Incoflex XLPE insulation is a chemically cross-linked closed-cell foam known for its:

- Excellent Thermal conductivity
- High Operating temperature range: -40°C to +105°C
- Excellent Water absorption rate:
- Excellent UV and chemical resistance
- Low smoke and zero halogen (LSZH)

This material is ideal for HVAC ducting, chilled water piping, and cleanroom environments, ensuring long-term durability and performance.

### NBR Insulation:

Incoflex NBR foam is a flexible elastomeric insulation designed for:

- High Thermal conductivity
- High resistance to condensation and moisture
- Excellent Fire Resistance Properties
- Anti-microbial and anti-fungal properties
- Easy to Install and low maintenance

Perfect for refrigeration lines, air-conditioning systems, and cold water piping, NBR foam ensures reliable thermal insulation even in humid environments.

**Zag Traders** is the exclusive distributor of Incoflex insulation products In Pakistan, ensuring local availability of these world-class solutions backed by expert support and service.

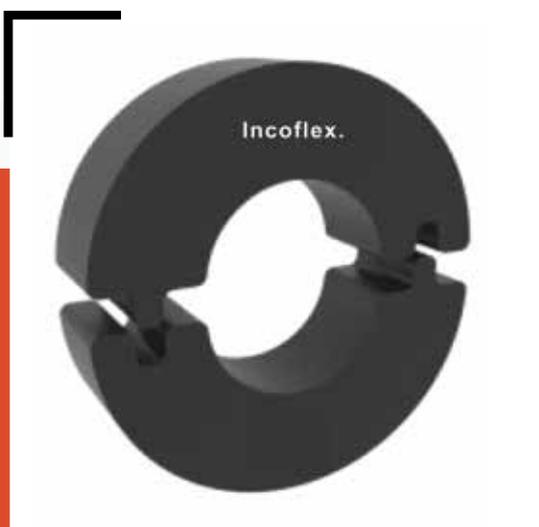

**ZAG**  
Traders Private Limited  
Incotec Group Company

## Incoflex Duct Liner:

Incoflex Duct Liner is designed to improve the performance of traditional sound absorbing products that are the result of an in-depth research that aims to develop environment-friendly, fire safe, durable and hygienic products without presenting a risk to the users health and improve IAQ. Incoflex Duct Liner provides excellent sound absorption properties with extremely long technical life and efficient thermal properties due to the very low thermal conductivity value, resistant to all kinds of maintenance products used during the cleaning process.

## Incoflex RSI:

Incoflex RSI (Rubber Support Insert) is designed to compensate high bearing forces especially for long span distances. Produced by moulding of reinforced EPDM with the hardness of max. 90 Shore A. Insulation blocks are narrowed with advantage of strength material.

Available in PU Foam also.

**Zag Traders** is the trusted supplier of Incoflex Product in Pakistan, delivering expert guidance and reliable distribution to support projects of all scales across the region.

# FloDuct PIR & Phenolic Ducting Systems

## Next-Generation HVAC Solutions for Thermal Excellence & Fire Safety

FloDuct ducting solutions represent the future of HVAC design — combining lightweight construction, superior insulation, and outstanding fire performance. Engineered using advanced PIR (Polyisocyanurate) and Phenolic foam technologies, FloDuct panels are designed to deliver energy efficiency, safety, and long-term durability across commercial, industrial, and residential sectors.

Whether you're working on new builds or retrofit projects, FloDuct's PIR and Phenolic ductwork systems ensure compliance with modern standards while offering unmatched ease of installation and maintenance.

### Exceptional Thermal Insulation

Low thermal conductivity ensures minimal energy loss, optimizing HVAC system efficiency and lowering operational costs.

### Class-Leading Fire Resistance

Phenolic and PIR cores are formulated for superior fire safety — resisting flame spread, smoke emission, and combustion.

### Lightweight & Strong

Ducts are easy to fabricate and install while offering excellent mechanical strength and rigidity.

### Space-Saving Design

Slim insulation profile delivers high performance without compromising valuable ceiling or wall space.

### Moisture & Mold Resistant

Closed-cell foam cores resist moisture absorption, reducing risks of microbial growth and corrosion.

### Low Leakage

Precision joints and sealed panels help reduce air leakage, enhancing overall HVAC performance.

### Technical Highlights

Available in both PIR and Phenolic foam core options with aluminum foil facings for added protection.

Panels are suitable for both low- and medium-pressure air distribution systems.

Offers high dimensional stability and structural strength over time.

Compatible with standard duct accessories and fittings.

Designed to meet international HVAC, fire safety, and thermal insulation standards.

### Exclusively Distributed by Zag Traders – Pakistan

Zag Traders is the sole distributor of FloDuct PIR and Phenolic Ducting Solutions in Pakistan. With deep industry expertise, extensive inventory, and commitment to quality, Zag Traders provides tailored ducting solutions for consultants, contractors, and developers nationwide.

*We offer full technical support, customized supply solutions, and nationwide delivery to ensure your project stays on schedule.*

# Pal Duct Systems

## Pre-insulated Ducting System

PAL is a global pioneer in pre-insulated ductwork, offering advanced HVAC solutions that combine energy efficiency, superior indoor air quality, and streamlined installation. Since introducing the first rigid pre-insulated duct system in 1965, PAL has remained at the forefront of ducting innovation.

PAL Duct Systems utilize high-performance polyisocyanurate (PIR) insulation cores, faced with embossed aluminum foil on both sides. This construction provides a fibre-free, closed-cell insulation core that ensures low thermal conductivity and excellent moisture resistance

## Key Features:

- Superior Thermal Performance: Low thermal conductivity minimizes energy loss, enhancing HVAC system efficiency.
- Lightweight and Durable: Easier handling and installation compared to traditional sheet metal ducts.
- Enhanced Indoor Air Quality: Fibre-free insulation core reduces the risk of airborne contaminants.
- Moisture and Corrosion Resistance: Closed-cell structure prevents moisture ingress, ensuring longevity.
- Fire Resistance: Meets international fire safety standards for building materials.
- Quick Installation: Pre-insulated panels reduce on-site fabrication time, accelerating project timelines.

**Zag Traders** is the trusted supplier of PAL Ducts in Pakistan, delivering expert guidance and reliable distribution to support projects of all scales across the region.

# Perfect Fiberglass Insulation

## Reliable, High-Performance Thermal & Acoustic Insulation

Perfect Fiberglass Insulation is designed to meet the demands of energy efficiency, temperature control, and noise reduction across residential, commercial, and industrial applications. Manufactured with high-quality glass wool fibers, it delivers exceptional thermal and acoustic performance while being safe, lightweight, and easy to install.

Whether you're insulating HVAC ducts, walls, roofs, or industrial equipment, Perfect Fiberglass Insulation is the trusted solution that ensures long-term energy savings and indoor comfort.

## Core Features & Benefits

- High Thermal Resistance
- Outstanding Acoustic Absorption
- Non-Combustible & Fire Safe
- Lightweight & Flexible
- Durable & Moisture-Resistant
- Eco-Friendly & Non-Toxic

### Technical Highlights

- Made from finely spun glass fibers with high thermal resistance properties.
- Available in blanket, roll, or board form with optional foil-facing for added protection.
- Excellent dimensional stability, maintaining shape and performance under varying temperature conditions.
- Compatible with a wide range of HVAC and building insulation systems.
- Offers long-term durability with minimal maintenance requirements.

### Available in Pakistan through Zag Traders

Zag Traders is proud to be a trusted supplier of Perfect Fiberglass Insulation in Pakistan. As a reputable distributor, Zag Traders ensures a consistent stock of quality insulation materials, technical assistance, and on-time delivery to meet your project needs across the country.

**ZAG**  
Traders Private Limited  
Incotec Group Company

# HVAC Division Ducting Accessories:

---

## Flexible Ducts

- **Insulated Flexible Ducts**

Made with a multi-layer inner core and thermal insulation wrap, ideal for maintaining airflow temperature and reducing energy loss. Outer layers are reinforced with aluminum or metallized film for added durability.

- **Uninsulated Flexible Ducts**

Lightweight and highly flexible for non-conditioned or general air transfer applications. Designed for easy routing in tight ceiling voids and service areas.

## Duct Connectors

- **Insulated Duct Connectors**

Constructed with thermal break layers and durable fabrics for vibration isolation & thermal integrity. Used between air handling units & rigid ducts to prevent energy loss & equipment strain.

- **Uninsulated Duct Connectors**

Ideal for standard HVAC connections where thermal insulation is not required. Engineered for flexibility, vibration absorption and easy installation.

## Technical Highlights

- Designed for optimal airflow control, vibration absorption and thermal efficiency.
- Constructed using multi-layer reinforced fabrics, aluminum laminates, and galvanized steel collars for strength and longevity.
- Available in various diameters and lengths to suit all system types and installation needs.
- High resistance to moisture, heat and UV exposure for use in diverse environments.
- Compatible with all major HVAC ducting systems, including rigid and semi-rigid formats.

### Sole Distributor in Pakistan

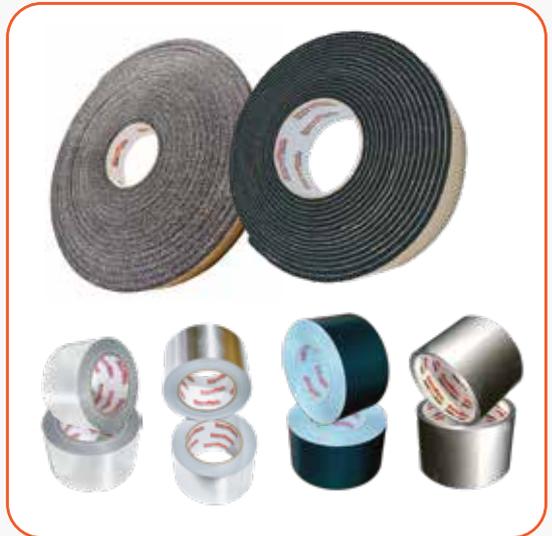

Zag Traders is the exclusive distributor of FloDuct Ducting Accessories in Pakistan. We supply a complete range of genuine accessories to support HVAC contractors, MEP consultants, and construction companies across the country.

With a strong logistics network and technical know-how, Zag Traders ensures product availability, expert guidance and on-time delivery for projects of any scale

**Incoflex Tape** is a trusted manufacturer of high-performance adhesive tapes serving the HVAC, aluminum, glass, and general industries. With 25+ years of experience, we offer reliable, durable, and customized tape solutions built to withstand the toughest environments.

### Product Range

- HVAC Tapes: Aluminum Foil, Alupet Foil, FSK, Aluglass, XLPE Insulation, PE Mesh, and NBR Foam Tapes
- Glass & Aluminum Tapes: Structural Glazing Tape, Double-Sided Glazing Tape
- General Purpose: Double-Sided Polyester, Kraft Paper Carton Tape, Neno-Grid Tape

## Why Choose Us?

Industrial-grade quality

Customized die-cutting & slitting

Fire-rated and eco-friendly options

Global standards, locally available

### Now in Pakistan — Distributed by Zag Traders

Zag Traders is the official distributor of Incoflex Tapes in Pakistan, offering full product support and timely delivery nationwide.

# HVAC Division **VENTILATION**

# INFINAIR™

## Advanced Ventilation Solutions

INFINAIR® is a leading manufacturer of high-performance ventilation systems, offering a comprehensive range of products designed to meet diverse industrial and commercial needs. With a commitment to innovation and quality, INFINAIR® ensures optimal air movement and control across various applications.

### Product Range

- **Centrifugal Fans:** Including low-pressure, high-pressure, plug, plenum and FRP centrifugal fans, suitable for a wide array of industrial applications.
- **Axial Fans:** High-efficiency inline vane axial fans and airfoil tube axial fans, ideal for general ventilation and smoke extraction.
- **Mixed Flow Fans:** Combining the features of axial and centrifugal fans, these are perfect for ducted air supply and exhaust systems.
- **Inline Fans:** Compact and versatile, suitable for various ducted ventilation requirements.
- **Roof and Sidewall Fans:** Designed for effective air extraction in commercial and industrial buildings.
- **Tunnel and Metro Fans:** Engineered for high-performance ventilation in transportation infrastructures.
- **Induced Jet Fans:** Optimized for enclosed parking areas and large spaces requiring efficient air movement.
- **EC Fans and Intelligent Control Systems:** Energy-efficient solutions with advanced control features for modern HVAC systems.
- **Infinair Cabinet Fans:** INFINAIR Cabinet Fans are engineered for high-efficiency ventilation in commercial and industrial spaces like hospitals

### AMCA-Accredited Laboratory

INFINAIR® boasts an aerodynamic performance laboratory accredited by the Air Movement and Control Association (AMCA), making it the first in Mainland China to achieve this certification. This facility plays a crucial role in R&D, ensuring that products meet stringent international standards for performance and reliability.

### Available in Pakistan through Zag Traders

Zag Traders is the authorized distributor of INFINAIR® ventilation products in Pakistan, providing local access to INFINAIR's comprehensive product range and technical support.

# HVAC Division Fixing System

---

**ZAG**  
Traders Private Limited  
Incotec Group Company

INCOFIX® specializes in pre-engineered support systems designed for the safe and efficient installation of building utilities, including HVAC, electrical, and plumbing systems. Manufactured in Vietnam, INCOFIX® products are engineered to meet stringent building codes and standards, ensuring reliability and safety in various construction environments.

## Product Range

- **Pipe and Duct Support Systems:**

Comprehensive range of supports for pipes and ducts, including hangers, clamps, rubber support insert and brackets designed to secure utilities while accommodating thermal expansion and contraction.

- **Seismic Bracing Systems:**

Engineered solutions to enhance building safety in earthquake-prone regions, ensuring that critical utilities remain intact during seismic events.

- **Anchoring Solutions:**

Essential systems for securing heavy equipment and utilities to building structures, providing stability and reducing the risk of displacement over time.

- **Vibration Isolator**

Incofix Fixing Systems manufactures high-performance vibration isolators designed to minimize noise and vibration across industrial and commercial applications. Engineered with precision, these isolators ensure stability, durability, and enhanced equipment lifespan.

### INCOFIX® in Pakistan

ZAG Traders (Private) Ltd. is the exclusive distributor of INCOFIX® Fixing Systems in Pakistan. Based in Karachi, ZAG Traders offers comprehensive engineering support, including design consultation, pull-out tests, and compliance assurance for anchoring and support systems.

## INDEX® Fixing Systems

INDEX is a global leader in manufacturing and supplying high-quality fixing systems, offering over 10,000 products tailored for construction, industrial and HVAC applications. With more than 40 years of experience, INDEX® ensures certified quality, technical support and fast delivery across 90+ countries.

### Product Range

- **Mechanical Anchors:** Expansion bolts, sleeve anchors, and drop-in anchors for heavy-duty applications.
- **Chemical Anchors:** Resin-based solutions for high-load and critical fixings.
- **Screws & Fasteners:** Self-drilling, wood, and concrete screws for various substrates.
- **Nylon Fixings:** Wall plugs, frame fixings, and cable clips for lightweight installations.
- **Clamps & Supports:** Pipe clamps, brackets, and HVAC support systems.
- **ETICS Fixings:** Specialized solutions for external thermal insulation systems.

## INDEX® in Pakistan

ZAG Traders (Private) Ltd. is the authorized distributor of INDEX® Fixing Systems in Pakistan. Based in Karachi, ZAG Traders provides engineering support, including design consultation, pull-out tests and compliance assurance for anchoring and support systems.

# Importers Of Leading Refrigeration Brands

---

The danfoss group manufactures products and provides services used in cooling food, air conditioning, heating buildings, controlling electric motors, gas compressors, variable-frequency drives and powering mobile machinery.

Founded in 1996, Elitech is dedicated to R&D and manufacturing products for the freezing and refrigeration industry, while also providing remote cold chain solutions. It has eight business units and two overseas sales and R&D institutes. At Elitech, we have over 170 professional engineers who develop more than 100 new data-logger products yearly. Elitech owns 80 authorized patents, including 30 software patents.

The Harris Products Group is a world leader in metal working products used in the brazing, soldering, welding, cutting, and gas distribution industries. The company was formed in 2006 with the merger of Harris Calorific, Inc., a manufacturer of gas welding and cutting equipment and gas regulation and distribution systems, and the J.W. Harris Co., a manufacturer of brazing and soldering alloys and welding consumables.

# Tecumseh

Tecumseh Products Company LLC is renowned for bringing product innovation, customer trust, and quality to the air conditioning and refrigeration industry. As a result of our innovative spirit and product performance, people rely on our products every day. We literally touch the lives of millions. We developed the first “hermetic” compressor for household refrigerators in 1937. The name Tecumseh became synonymous with commercial refrigeration and central home air conditioning. In 1953, we expanded our product line to include automotive air conditioning compressors.

**ZAG**

Traders Private Limited  
Incotec Group Company

# embraco

Embraco is a company specialized in cooling solutions and a world leader in the hermetic compressor market. Our mission is to provide innovative solutions for a better quality of life, always attentive to technological excellence and sustainability. Founded in Joinville (SC), in southern Brazil, Embraco began production in 1974, initially to supply the Brazilian refrigerator industry, which at that time relied on imported compressors.

**ZAG**

Incotec Group Company

Refrigeration is the brightest future and to accomplish this future, the world requires precise maintenance. Refrigeration tools play a major role in developing accurate and precise refrigeration systems as well as managing them to work efficiently. "Harbax" has entered the stream of precision and accuracy with refrigeration measuring and operating tools.

# FRIGA-BOHN

Commercial refrigeration equipment and services As a leader in the refrigeration market in Europe and the Middle East, Friga-Bohn has a heart for developing, manufacturing, and selling state-of-the-art solutions for commercial and food services applications. We are actively taking part in the refrigeration transition by offering CO2 and A2L solutions.

## Unit Coolers

## Condensers

# AKO

At AKO Group, we develop innovative solutions for sustainable and efficient refrigeration, promoting the care of our planet and the people who inhabit it. We consider design and usability essential attributes of all our technological solutions, as they significantly improve the user experience.

Refrigeration and air conditioning technologies are key elements of our world. The BITZER Group has been contributing innovative products and services for 80 years. Our products maintain optimum temperature on buses, trains, and in buildings, ensuring food stays fresh at all times on its way to you. Perfection and precision shape our operations, while efficiency and sustainability guide our way of thinking. With specialists and great passion, we promote development in compressor technology and fulfill our responsibility as a market leader.

Gree Electric Appliances Inc. of Zhuhai was founded in 1991. It is an international air conditioning enterprise with integrated R&D, manufacturing, marketing, and service. It takes “Master of Core Technology” as its business concept and “To build a centenary enterprise” as its development target. It leads the industry with excellent product quality, advanced technologies, and a unique sales model.

In 2012, Gree became the first listed electrical appliances enterprise in China with sales revenue over 100 billion yuan (about 16 billion USD). On April 27, 2015, Gree released its 2014 performance report, which showed sales revenue of 140.005 billion yuan (about 22.9 billion USD) with a net profit of 14.155 billion yuan (about 2.32 billion USD), an increase of 16.63% and 30.22% respectively compared with 2013. In 2014, Gree Online Mall was officially launched. Gree is the only manufacturer in the Chinese HVAC industry honored as a “World Brand.” Its business spreads to more than 160 countries and regions. Today, Gree’s annual RAC and CAC production capacity is more than 60 million sets and 5.5 million sets, respectively. Since 2005, Gree has ranked No. 1 in production and sales.

# Suniso®

## World leading Refrigeration Oils

The design of modern air-conditioning and refrigeration compressors varies from manufacturer to manufacturer. However, all have one important characteristic: they require a highly specialized type of lubricating oil in order to assure a long trouble-free service of the refrigeration compressor. Suniso oils meet these special demands; they are of high stability and give long trouble-free service life in modern compressors designed to maximize output capacity with minimum physical size. Suniso mineral oils are manufactured from well-refined petroleum lubricating oil stocks, while the synthetic ones are based on the finest synthetic base stocks. All represent the best choice among available compressor lubricant

Incotec Group Company

Since 2008, ERON has been delivering high-quality copper pipes and coils engineered for strength, precision, and long-term performance. Manufactured with strict quality control and near-perfect accuracy, ERON products are trusted for reliable use in refrigeration and HVAC systems. Backed by excellent service and global vision, ERON stands for durability, efficiency, and total customer satisfaction.

In 1899, inspired by necessity, Frederick W. Robertshaw invented the thermostat. Then he founded a manufacturing company to make it. A century later, and still inspired by our founder, Robertshaw has been awarded more than 2,000 patented inventions. Naturally, a few things have changed since the first thermostat. But the inspiration to develop new inventions hasn't. The father of our company inspired us to become a global leader in the appliance controls industry. Our ability to custom design innovative electronic and electromechanical controls to meet customers' needs is without equal.

The trusted Capillary brand is crimped and sealed for maximum reliability, offering high performance. Each complete kit is individually packed with all necessary hardware and instructions in six languages.

Throughout the 20th century, the Weiss name has been synonymous with quality and reliability in instrumentation. Some of the products we have manufactured for more than 135 years are proudly illustrated in this catalog, dedicated to your requirements in the plumbing, heating, and cooling industry. Recent products, such as our line of Vari-angle Digital Thermometers—fast becoming the contractor’s choice—are also available to you. Whether you require instruments for temperature or pressure monitoring, the Weiss line offers options to meet your needs. Our commitment to quality extends beyond the products we provide. Each day, we strive to offer our customers responsive service and reliable on-time deliveries—qualities essential in today’s business climate. Weiss understands the trends of today’s market and looks forward to meeting the daily challenges.

## Temperature Pressure Instruments

Weiguang is renowned for its high-quality and efficient industrial equipment, widely used in the manufacturing and production sectors. From fans and motors to other essential industrial components. Weiguang offers solutions that enhance efficiency and reliability.

XMK Evaporators designs and manufactures high-performance evaporators for industrial applications, focusing on energy efficiency and reliability. Their innovative solutions help businesses optimize cooling while reducing costs.
